Core Competencies

- **Responsive Web Design:** Expertise in creating mobile-first designs and ensuring compatibility across devices.
 - **UI/UX Principles:** Proficient in designing intuitive and engaging user interfaces.
 - **Version Control:** Skilled in using Git for code management and collaboration.
 - **Performance Optimization:** Experienced in optimizing web applications for speed and scalability.
 - **Collaboration:** Strong team player with experience in Agile development environments.
 - **Problem-Solving:** Adept at debugging and resolving complex technical issues.
-

Professional Experience

Freelance Developer

2021 – Present

- **NET Partner 011 (Internship):** Contributed to the development and optimization of various web projects, including an SEO-centric website and an AI-powered Travel Planner. Collaborated with cross-functional teams to enhance user experience, implement front-end features, and integrate advanced SEO strategies.
- **Clean-Commerce Website Development:** Designed and developed www.clean-commerce.com from concept to deployment. Created the design in Figma, and implemented the website using HTML, CSS, JavaScript, Bootstrap 5, LightBox, Git, and Google reCaptcha. Successfully delivered a fully responsive, user-friendly website.
- **ASV Beograd Website Development:** Developed www.asvbeograd.com using Angular. Employed HTML, CSS, TypeScript, MD Bootstrap, Git, and Google reCaptcha to create a dynamic and interactive website, ensuring a seamless user experience.

Languages

- **Serbian:** Native (Mother tongue)
 - **English:** Advanced proficiency
 - **German:** Beginner (Passive knowledge)
-

Personal Projects

- **React Tic-Tac-Toe Game App**
Developed an interactive Tic-Tac-Toe game with React, featuring gameplay with a friend and move summaries. [Live Preview](#)
 - **Pizza Pal Express**
Created a responsive React application for online pizza ordering, featuring React Router for seamless navigation, Redux Toolkit for state management, and Tailwind CSS for styling. [Live Preview](#)
 - **Fit Tick Fitness Timer**
Designed and developed a React-based fitness timer application to help users manage their workout sessions. The app includes customizable settings for training types, sets, breaks, and speed. [Live Preview](#)
 - **Split Bites**
Developed a React app for splitting food bills among friends, with features for adding/removing friends and bill calculation. [Live Preview](#)
 - **Voyage Check**
Designed and developed a travel checklist app using React, aimed at helping users organize their packing lists. Features include adding, removing, and sorting list items. [Live Preview](#)
 - **iCook Recipe App**
Created a recipe management app with React, Redux, React Router, and React Hook Form. Allows users to create, view, and delete recipes. [Live Preview](#)
 - **What's the Number? Game**
Implemented a number guessing game using HTML, CSS, and JavaScript. [Live Preview](#)
-

Technical Skills

- **Frontend Development:** HTML, CSS, SCSS, JavaScript, TypeScript
- **Frameworks/Libraries:** React, NextJS, Angular, jQuery
- **UI/UX Design:** Figma, Tailwind CSS, Bulma, Bootstrap (3, 4, 5, MD Bootstrap)
- **State Management:** Redux, Redux Toolkit
- **APIs/Data Handling:** Ajax, JSON, REST API
- **Version Control/Deployment:** Git, FTP Management
- **Other:** Command Line (CMD), FileZilla
